

(회로당 3.75kw)

The diagram illustrates a building layout with various rooms and corridors, each labeled with a number and a corresponding duct or ceiling label. The layout is organized into several sections:

- SR Wall Pocket:** Located at the top left, containing rooms 82-88 and 89-96, with ducts RD 1-8 and ceilings DMX 1-8.
- SR Side Balcony:** Located at the bottom left, containing rooms 72-77 and 78-81, with ducts RD 11 and ceilings DMX 11.
- Center Balcony:** A large open space at the bottom center, containing rooms 81-88 and 89-96, with ducts RD 12 and ceilings DMX 12.
- SL Wall Pocket:** Located at the top right, containing rooms 89-96 and 97-104, with ducts RD 15 and ceilings DMX 15.

The diagram uses a color-coded system to identify different types of ducts and ceilings:

- Blue:** Ducts (RD)
- Orange:** Ceilings (DMX)
- Green:** Other areas

The layout is symmetrical, with the SR and SL sections mirroring each other. The Center Balcony is a large open space at the bottom. The diagram uses a grid system to organize the rooms and corridors, with each room and corridor labeled with a number and a corresponding duct or ceiling label.
